

Astound Broadband

Moving Checklist

Use this printable checklist to cover all the bases when moving. Want a more comprehensive list? Learn how to [move your internet in 10 easy steps](#).

1. Contact your internet service provider to transfer service.

- Visit the “Contact Us” section of your internet provider’s website to find out how.

2. Evaluate what internet speed you need.

- Check your internet provider’s plans against your household’s needs (working from home, gaming, etc.)

3. Identify what WiFi equipment you require.

- What router and modem do you need?
- Could eero Mesh WiFi increase your signal and provide security?
- Is a gaming router right for your family?

4. Decide what TV package is right for you.

- Review available TV package options and choose the one that fits your viewing habits and budget.

5. Save even more when you bundle your internet, TV and mobile services.

- Look for an internet provider that allows you to bundle multiple services for big savings.

6. Figure out what [equipment you need to bring with you](#).

7. Set up your online account to manage your services.

8. Investigate whether you qualify for the Affordable Connectivity Program (ACP).

- Eligible households can get up to \$30 off their monthly internet service.
